Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

TOWN OF THESSALON, DISTRICT OF ALGOMA

TO WIT:

BY VIRTUE OF A WARRANT issued by the Mayor under the Seal of the Corporation of the Town of Thessalon, to me directed, bearing date the 8th day of January, 1976, commanding me to levy upon and sell the lands mentioned in the following list of arrears of taxes and costs due thereon, I hereby give notice that, unless such arrears of taxes and costs are sooner paid, I shall, pursuant to the provisions of *The Municipal Act*, proceed to sell by public auction the said lands, or as much thereof as may be necessary for the payment of the said taxes and costs at the Council Chambers, Town Hall, Town of Thessalon, on Wednesday, the 8th day of September, 1976, at the hour of 2.00 o'clock in the afternoon.

An adjourned sale if necessary, will be held at the Town Hall at the same hour on the 15th day of September, 1976, and the Corporation intends to purchase any of the lands offered for sale unless the full amount of all arrears of taxes and costs be realized from the sale thereof.

All the said lands are patented.

Dated at Thessalon, Ontario, this 19th day of May, 1976.

J. HEARD STEWART, A.M.C.T.,

DESIGNATION OF CROP YEAR

5. The crop year for flax is the period from the 1st day of March in any year to the last day of February next following.

CONTRACT OF INSURANCE

6. For the purposes of this plan, the entire contract of insurance for flax shall be deemed to be comprised of,

- (a) the contract of insurance in the form prescribed by Regulation 156 of Revised Regulations of Ontario, 1970;

- (c) be filed with the Commission not later than the 1st day of May in the crop year in respect of which it is made.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made, and shall continue in force for each crop year thereafter until it is cancelled by the insured person or the Commission in the manner prescribed by subsection 2 or is terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of May in the crop year during which the cancellation is to be effective.

COVERAGE

9.—(1) Subject to subsections 2 and 3, the coverage provided under a contract of insurance shall be 70 per cent of the average farm yield in pounds of the total acreage seeded to flax by the insured person in accordance with the regulations.

(2) The coverage provided under subsection 1 shall be increased following each consecutive no claim year as follows:

- 1. Following the first no claim year to 73 per cent of the average farm yield.
- 2. Following the second no claim year to 76 per cent of the average farm yield.

(4) The number of pounds determined under subsections 1, 2 and 3 constitutes the total guaranteed production under a contract of insurance.

10. The maximum indemnity payable for a loss in production of flax in a crop year is the amount obtained by multiplying the total guaranteed production determined under section 9 by the established price per pound determined under section 11.

11.—(1) For the purposes of this plan the established price for flax is,

- (a) 5¢;
- (b) 6½¢; or
- (c) 8¢,

per pound.

(2) Where,

- (a) the insured person applies therefor in writing on or before the 1st day of May in a crop year; and
- (b) the Commission consents in writing,

any established price designated herein may be substituted for the established price selected by the insured person at the time a contract of insurance is made, or any established price substituted in lieu thereof under this section.

(3) Where, upon any renewal, the insured person fails to select an established price pursuant to subsection 2, the Commission may designate the established price applicable to the contract for the crop year.

(2) Notwithstanding subsection 1, the minimum premium payable by an insured person in each crop year is \$15.

(3) The premium prescribed by subsections 1 and 2 includes payments in respect of premiums made by the Government of Canada under the *Crop Insurance Act* (Canada).

13.—(1) Where a contract of insurance is in force, a premium shall be paid in respect of each crop year in which the insured person seeds acreage to flax.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit, if any, to the Commission at the time he files the final acreage report prescribed by section 14.

FINAL ACREAGE REPORTS

14.—(1) Every insured person shall file with the Commission in each crop year a final acreage report in Form 3 within ten days after the seeding of acreage to flax is completed.

(2) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

15.—(1) The Commission may revise the final acreage report in any or all respects and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith respecting such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision of the final acreage report and adjustment of premium made by the Commission under subsection 1 unless, within ten days from the mailing or delivery of the notification by the Commission, he notifies the Commission in writing that he rejects such revision and adjustment.

(3) Where the Commission receives notice from an insured person under subsection 2, it shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed and shall refund any premium or premium deposit paid in respect of that crop year.

(4) A final acreage report revised under this section shall, failing notice under subsection 2, constitute the final acreage report for the crop year.

16.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

(b) declare the insured acreage to be nil.

(2) Where the Commission prepares a final acreage report under subsection 1, the Commission shall mail or deliver a copy of the report to the insured person.

(3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report is prepared by the Commission within ten days from the mailing or delivery to him of a copy of the report.

Form 2

The Crop Insurance Act (Ontario)

FLAX ENDORSEMENT

WHEREAS the insured person has applied for crop insurance for flax under The Ontario Crop Insurance Plan for Flax hereinafter referred to as "the plan", and has paid the deposit premium prescribed thereunder;

NOW THEREFORE, subject to *The Crop Insurance Act (Ontario)* and the regulations made thereunder, the contract of insurance between The Crop Insurance Commission of Ontario and the insured person is hereby extended to cover flax.

HARVESTING OF SEEDED ACREAGE

1.—(1) All acreage seeded to flax in a crop year shall be harvested unless the Commission, upon application therefor in writing, consents in writing to,

- (a) the use of the seeded acreage or any part thereof for another purpose; or
- (b) the abandonment or destruction of the insured crop or any part thereof.

(2) Where the harvesting of any seeded acreage is not completed and the failure to harvest was not caused by an insured peril, the contract of insurance shall cease to apply to such unharvested acreage and no indemnity shall be payable therefor.

EVALUATION OF LOSS

2.—(1) Where,

- (a) the insured so elects on his application for insurance and pays a premium deposit of \$1 for each acre intended to be sown to a spring sown crop; and
- (b) the seeding or planting of three acres or more of a crop is prevented by one or more of the designated perils,

an indemnity shall be paid in respect of each acre unplanted, the amount of which shall correspond to the guaranteed production of the spring sown crop highest in priority on the list in the Table of those intended to be grown and insured by the insured person.

(2) Where the insured person seeds or plants a crop in respect of which crop production insurance was applied for, the premium deposit for the acreage so seeded or planted shall be applied against the regular premium.

(3) Where the insured person seeds or plants a crop which is not listed in the Table, the premium

deposit in respect of the acreage so seeded or planted shall be refunded.

(4) Where the insured person seeds or plants a crop which is listed in the Table, and fails to insure the crop, the premium deposit in respect of acreage so seeded or planted shall be retained by the Commission as payment for the coverage provided.

(5) Where the insured person is unable to seed or plant any acreage designated on the application as intended to be sown to a spring sown crop, the premium deposit in respect of such acreage shall be retained by the Commission as payment for the coverage provided.

(6) This paragraph does not apply to, and no indemnity is payable in respect of land,

- (a) that is orchard land, pasture, woodland, seeded to a perennial crop, fall sown or intended for summer fallow;
- (b) that is untilled and was not cropped in the previous year; or
- (c) that, in the opinion of the Commission, is not insurable.

3.—(1) Where loss or damage to three acres or more of the insured crop resulting from an insured peril occurs prior to the 1st day of July in the crop year, the Commission, upon application therefor in writing by the insured person, may consent in writing to the reseeded of the damaged acreage.

(2) Where the damaged acreage is reseeded in accordance with subparagraph 1, the Commission shall pay a benefit to the insured person calculated at the rate of \$15 for each reseeded acre.

(3) Where the damaged acreage is reseeded to flax the contract of insurance shall continue to apply to such reseeded acreage.

4.—(1) Where loss or damage occurs prior to harvest, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof.

(2) Where damaged acreage is used for any other purpose or the insured crop thereon is abandoned or destroyed in accordance with subparagraph 1, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production for the damaged acreage and the potential

production for the damaged acreage determined under subparagraph 1 by the established price per pound.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph 2 shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the harvested acreage is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total seeded acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per pound.

FINAL ADJUSTMENT OF LOSS FOR TOTAL INSURED ACREAGE

5. The indemnity payable with respect to the total insured acreage in the final adjustment of loss shall be the sum of all loss calculations made under paragraphs 2, 3 and 4 applicable to such acreage, but where,

(a) the actual production of any harvested acreage; or

(b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable in respect of loss

calculations made under paragraph 4 shall be reduced by the amount obtained by multiplying such excess by the established price per pound.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

6.—(1) Where the actual seeded acreage of flax in a crop year is less than the seeded acreage declared on the final acreage report, the guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual seeded acreage of flax in a crop year exceeds the seeded acreage declared on the final acreage report, the production from the total seeded acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

3. All rents requested must be on a monthly basis. If you are or will be paying or charging rent on a weekly basis, multiply your rent by 4.3 in order to arrive at the monthly rent.

 - (a) Come to an agreement with the tenant(s) to reduce the amount of the rent increase - OR -

7. Use this form for a tenancy agreement granting or renewing occupancy of residential premises for a period commencing anytime on or after August 1, 1976 but prior to August 1, 1977. For a tenancy agreement granting or renewing occupancy of residential premises prior to August 1, 1976 use Form 5.

Instructions to the Landlord

3. You must attach a list of all residential premises situate in the same building or project as the premises which are the subject of this application as required under Section 5 (10) of the Act. This list should also include the present rent charged for each residential premises and the termination or renewal date for each tenancy agreement.
4. You must submit a separate Application (Form 5A) for Rent Review for each residential premises for which you are applying for a rent increase.

Definitions

"Residential Premises" - refers to the premises which are the subject of this application and means:

- (i) any premises used or intended to be used for residential purposes, and
- (ii) land used as a site for a mobile home used for residential purposes.

"Rent" - includes the amount of any consideration paid or given or required to be paid or given by or on behalf of a tenant for occupancy of residential premises and for any service, privilege, accommodation or thing that the landlord provides for the tenant, whether or not a separate charge is made for such service, privilege, accommodation or thing.

On this form the rent requested is divided into Unit Basic Rent and Separate Charges. Unit Basic Rent means the rent charged for the residential premises and does not include any separate charges payable to the landlord for a service, privilege, accommodation or thing. For example, if a tenancy agreement states that the monthly rent is \$200.00 plus \$20.00 for parking, you should put the \$200.00 under Unit Basic Rent and \$20.00 under Separate Charges. However, if a tenancy agreement states that the monthly rent is \$220.00 including the use of parking space (and the agreement does not state what portion of the \$220.00 is allocated to parking space), you should put the \$220.00 all under Unit Basic Rent.

"Tenancy Agreement" - means an agreement between a landlord and a tenant for possession of residential premises, whether written, oral or implied.

CLAIMS

15.—(1) Subject to subsection 2, the fund is established to stand in the place and stead of a participant for the payment out of the fund of such claims of clients of the participant that the participant has refused, after demand or is unable to pay, and which claims meet the following requirements:

1. A client who has made payment for travel services to a participant in Ontario and who has not received the travel services contracted for, shall be entitled to claim for a refund of moneys so paid to the extent only that such services are not so provided and after he has made a demand for payment from a participant which the participant has refused without legal justification to pay or is unable to pay by reason of bankruptcy or insolvency.
2. No client shall have a claim for the refund of any money paid by him to a participant where he was informed, prior to the making of his payment to the participant, that the money paid by him was a non-refundable deposit or a reasonable service charge.
3. The Board shall determine the eligibility of any claim made by a client and shall direct the Trustee to pay any claim that meets the requirements of this Schedule, and the decision of the Board is final.

4. No client of any participant shall have any vested or absolute right to payment of any claim against the Board, the Trustee or the fund.

(2) Where a participant who is a travel agent has acted in good faith and at arms' length with a participant who is a travel wholesaler and where the participant who is a travel agent has passed his client's money to the participant who is a travel wholesaler and has at his own expense reimbursed his client or arranged alternate travel for travel services contracted for and not provided to the client, effective on and after the 15th day of July, 1975, the participant who is a travel agent shall be entitled to claim for the refund of that portion of the client's moneys passed to the participant who is a travel wholesaler and shall not be entitled to claim any commission received or owing on account of the services contracted for.

(3) The provisions of paragraphs 3 and 4 of subsection 1 and subsection 4 shall apply, *mutatis mutandis*, to a claim made under subsection 2.

(4) A claim for payment out of the fund may only be made by a claimant giving written notice of claim to the Registrar for transmittal to the Board with full particulars thereof and of any payment recovery in respect thereof and the Trustee may require as a condition precedent to making payment of such claim or any part thereof, the delivery and execution of such documents as the Trustee in its discretion or upon the advice of its Counsel considers necessary including such documents as are necessary for transferring to the Trustee the interest of the client in such claim so as to subrogate the Trustee to the position of the client against the participant.

(5) Notwithstanding subsections 1, 2, 3 and 4,

- (a) the maximum aggregate amount of claims which shall be paid in respect of any one participant shall not exceed the sum of \$300 multiplied by the number of participants;
- (b) the Trustee may in its discretion defer the payment of claims in respect of any one participant until the Trustee is reasonably satisfied all claims likely to be made in respect of such participant have been received by the Trustee;
- (c) the Trustee may in its discretion reserve against claims which it thinks may be validly made and any such reservations shall be the equivalent of a payment of such claim for the purpose of an additional payment to the fund under sections 12 and 13 of this Schedule; and
- (d) the Trustee in its discretion may pay claims in respect of any one participant in one or more instalments as it sees fit.

(6) When it appears to the Director or the Board that a client of a participant has been placed in circumstances where immediate funds and facilities are necessary to alleviate the suffering and inconvenience of the client where the client is outside of Canada, the Board, with the concurrence of the Director, may direct the Trustee to pay out of the fund an amount sufficient for the repatriation and necessary accommodation of the client.

(7) The amount of a payment under subsection 6 on behalf of a participant shall be deemed to be an additional payment due to the Trustee by such participant and the Trustee shall demand payment from the participant forthwith.

(8) Notwithstanding the provisions of subsection 1 of section 7 of this Schedule, where a quorum of the Board is not available, the powers set out under subsection 6 may be exercised by any two (2) members of the Board with the concurrence of the Director or his designate in writing.

(3) Where a default is not satisfied within ten days from the date of the notice from the Trustee referred to in subsection 2, the participant shall be deemed to be expelled from the fund.

(4) Subsection 3 does not apply where the default is due to the insolvency, bankruptcy or voluntary or compulsory winding-up of a participant.

(6) A participant referred to in subsection 5 shall file with the Board, the Trustee and the Registrar such financial statements and other evidence as the Board and the Director may in its discretion require to establish that the affairs of the participant are settled and that there are no claims on the fund and that arrangements satisfactory to the Board and the Director have been made to ensure that all liabilities and obligations of the participant which should give rise to any such claim have been met and discharged.

Thibodeau Express Inc.,

Windsor, Ontario N8X 4L3,

NOTICE OF MOTION

TAKE NOTICE that the Ontario Highway Transport Board will be moved pursuant to Section 17 of *The Ontario Highway Transport Board Act* for an order directing the reopening of the hearing of a portion of the application of Thibodeau Express Inc., heard by the board in May and November of 1975, and resulting in the Board's Decision dated the 7th day of April, 1976, in which the Class 'A' application of the Applicant was granted in part, subject to certain provisos.

The Applicant herein seeks the Board's order reopening the Class 'A' portion of the application on the following grounds:

(1) In denying the application for Class 'A' extension to include the entire County of Essex, the Board accepted the evidence of James Meagher, an employee of Canadian National Express Company, a Company which did not oppose or intervene in the application, that the Company was providing an overnight service to Essex County points on 87% to 95.6% of all shipments handled by that Company and that the public requiring service was thereby presently being provided with an adequate service.

In accepting and relying on that evidence as a reason for denying the application for a Class 'A' extension to serve Essex County, rather than the service standard of the Class 'A' licensees respondent to the application proved in evidence, the Applicant intends to submit that on the face of the Board's Reasons for Decision, there is a necessary inference that the Class 'A' carriers respondent to the said application were not providing an acceptable level of service from a time in transit point of view to the public in the County of Essex.

Further, in accepting that evidence the Board necessarily must have found that the Canadian National Express Company provided a type of service which was co-extensive with the services proffered by a Class 'A' licensees, such as the Applicant, or the several Class 'A' carriers respondent to the proceedings, which was contrary to the evidence of the said James Meagher that in excess of 80% of all traffic handled by Canadian National Express Company consisted of packages weighing 100 lbs. or less.

The applicant intends to submit that the Board erred in finding that The Canadian National Express Company service was a satisfactory alternative to the services proffered by Class 'A' licensees sufficient to deny the Applicant a Class 'A' licence to serve points in Essex County on the grounds that Canadian National Express Company was available to the public and providing a satisfactory level of service to the public.

(2) The Board in denying the application for a Class 'A' extension to include the County of Essex found that the establishment of a terminal in the Town of Leamington by the Applicant would not reduce the number of tractor trailers making deliveries within the Town and that the Town by by-law could control traffic congestion within the Town by banning the use of tractor trailers within the Town. The Applicant intends to submit that the Board erred in so finding in that the Council of the Town of Leamington could not contemplate a by-law banning tractor trailer delivery to the merchants and other members of the public within the Town until such time as a Class 'A' carrier, licenced to provide a service to the Town, equipped with and willing to provide pickup and delivery services within the Town in smaller delivery trucks, was available to the shipping and receiving public in the Town.

(3) The Applicant further intends to submit that the Board erred in considering the question of the use of tractor trailers in the Town of Leamington only from the point of view of traffic congestion and in not considering the evidence of the merchants and other receivers of freight in the Town as to the difficulty of receiving merchandise and the damage sustained to merchandise occasioned by the use of tractor trailers to effect delivery to their premises considering that the size of the units involved necessitating off loading in the street in front of their premises instead of at their receiving doors in alleys to the rear and the fact that large and bulky and heavy items had to be unloaded without the assistance of a power tail gate from the high deck of such tractor trailer units.

(4) The Applicant further intends to submit that the Board erred and was inconsistent in supporting in part its decision to grant the Applicant Class 'A' authority in Kent County on the grounds that the public required a Less Truck Load service for heated and refrigerated traffic 5 days a week and in not extending that finding to include Essex County. The Applicant intends to submit that the evidence of the inability of the public to obtain a heated service 5 days a week from any Class 'A' carrier respondent in the matter extended to include Essex County as well as Kent County that if, as the Board found, it was in the public interest to licence the Applicant in Kent County because it would provide such a service 5 days a week, failing such a service by any of the existing licensees, it was no less in the public interest to licence the Applicant so that it could provide such a service in the County of Essex.

(5) The Applicant further intends to submit that the Board erred in inserting a proviso to its certificate granting the Kent County portion of the Class 'A' application requiring the Applicant to provide heated or refrigerated service for Less Truck Load shipments 5 days a week. There was no evidence of any requirement for a refrigerated

service in Less Truck Load traffic or at all, nor does the Applicant nor any of the respondents provide such a service. The evidence was solely concerned with the lack of heated service 5 days a week and the necessity therefor.

(6) The Applicant further intends to submit that the Board erred and was inconsistent in inserting a proviso to its certificate granting the Kent County portion of the Class 'A' licence requiring the licensee file a decrease in rates for minimum shipments to compete with Courier or Express Services now operating within the County. The Applicant gave evidence that if the licence authority were granted as applied for it would be able with the geographic coverage thus afforded to institute a rate structure competitive with the Courier or Express services on small shipments. The Board in granting Class 'A' authority in Kent County subject to the above-mentioned proviso clearly found it in the public interest that a Class 'A' carrier, the Applicant, introduce a rate structure competitive with the Courier and Express Services and was inconsistent in confining the certificate to Kent County alone and not extending the same to include Essex County.

In any event, the Applicant intends to submit that the said proviso is unfair, inappropriate and impossible of fulfilment when the Class 'A' application was granted in part (Kent County) and not as applied for (Essex and Kent Counties).

The evidence was conclusive that geographic coverage is essential to the establishment of a rate structure competitive with Courier services and to compete with such services. Without Essex County, the largest and most populous of the two counties applied for, the Applicant intends to submit that it would not be able to support a rate structure competitive with Courier and Express services enjoying wide geographic licence authority, nor would it be fair to the public in the balance of its service area in South Western Ontario, particularly in Essex County, to institute such a rate structure applicable to shippers and receivers in Kent County alone.

And upon such further and other grounds as counsel may advise and the Board permit.

Dated at Toronto, this 29th day of April, 1976.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

COUNTY OF PRINCE EDWARD

To WIT:

BY VIRTUE OF A WARRANT under the hand of the Warden and seal of the Corporation of the County of Prince Edward, bearing date the 4th day of June, 1976, and to me directed, commanding me to levy upon the lands mentioned in the following list, for arrears of taxes thereon, together with all costs incurred, I hereby give notice that unless the arrears are sooner paid I shall proceed to sell the said lands at the County Buildings, Picton, by public auction, on Tuesday, the 19th day of October, 1976, at the hour of 2.00 o'clock in the afternoon, in accordance with *The Municipal Act*.

NOTICE IS HEREBY FURTHER GIVEN that if any of the said lands remain unsold, an adjourned sale will be held on Tuesday, the 26th day of October, 1976, at the same hour and place, and at which municipalities may reserve the right to purchase any of the said lands.

Dated at Picton, Ontario, this 4th day of June, 1976.

Note

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-gray-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracycline drugs, therefore, should not be used in this age group unless other drugs are not likely to be effective or are contraindicated.

Hypertension - Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p 8 (FDA Cardiovascular Advisory Committee).

Hypertension - Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static, it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p. 8 (FDA Cardiovascular Advisory Committee).

ANNUAL REPORT
SECTION 178.22 CRIMINAL CODE
GENERAL ASSESSMENT

Section 178.22 (3) (b) of the Criminal Code requires me to set forth a general assessment of the importance of interception of private communications for the investigation, detection, prevention and prosecution of offences.

All applications for authorizations relating to offences under the Criminal Code, except those charges relating to conspiracy to deal in narcotic drugs, or conspiracy to commit other offences which are currently being prosecuted by the Federal Department of Justice, are handled by my agents, being either the Crown Attorney in a particular County or lawyers within the head office of my own Ministry. Each application is carefully screened and, in my view, the relatively few authorizations which have been obtained throughout 1975, coupled with the obvious high number of charges which have resulted therefrom, indicate that careful consideration and good judgment is being used by my agents and by police throughout Ontario.

A number of cases involving wiretap evidence are currently before the courts of Ontario, and it is becoming increasingly obvious that the evidentiary problems that arise therefrom are very complex and the trials involving the use of this type of evidence are unusually long and, obviously, very expensive. On the other hand, the offences charged are serious and since the Judges are still faced with a relatively new law and there is little or no precedent to follow, the legal issues on the question of admissibility are being argued at great length.

Courts across Canada are taking different views in relation to some fundamental issues arising from these sections. There appears to be a disparity of opinion as to whether or not a court will go behind an authorization and direct that the sealed packet be opened so that an accused might examine an affidavit upon which an authorization was obtained. Some courts have permitted this procedure to be followed, either at a trial or upon a preliminary motion, and others have indicated that if the authorization is valid on its face, then, in the absence of some evidence being brought forth by the accused that the order was obtained by fraud or deceit, the sealed packet will not be opened.

In some cases, upwards of 900 hours of tapes have been accumulated by the police as a result of an authorization which has been renewed and which may involve several suspects. The law provides that a transcript of any private communication that has been intercepted must be given to each accused if it is to be admissible at trial. This is an extremely costly and time-consuming process and if the Crown should elect to introduce only a portion of those tapes, the issue is still unclear as to whether or not each accused is entitled to hear all the other hours of interception, particularly where these involve conversations with other accused, since the law provides that it is an offence to disclose any interception without the consent of the person who has been the subject of interception. Various practices have been developed across Canada which are not uniform and this is causing a real problem for the Courts.

To assess the impact of the new law from the point of view of the police, I have asked several of the major Police Forces in Ontario to provide me with their views on this matter. I would like to quote and adopt some of the statements which I have received from these Police Forces:

- (a) "It is the opinion of the officers involved in major investigations that, had they not had the assistance of an authorization to intercept the private communications of persons involved, many crimes of a serious nature would have been undetected and the lack of evidence would have enabled suspected persons to avoid prosecution. (Metro Toronto P.D.)
- (b) The wiretap amendments to the Criminal Code have been in effect since July, 1974. We have found that it is an invaluable aid to law enforcement with the exception of a few sections, namely the notification section and the duration of the authorization period. There are Bills presently before Parliament to change these sections which will hopefully rectify the situation.

Adequate prior knowledge is essential in the prevention of crime, and as crime by its very nature is largely secretive, carried on behind closed doors, and out of sight and hearing, the interception of private communications allows law enforcement to penetrate these barriers through the interception of private communications . . . Today criminals are becoming highly sophisticated in their endeavours. Traditional methods of police investigation are fruitless in many instances. Police interception of private communications has been the most successful investigative tool used to solve such cases. (Peel Regional P.D.)

- (c) There is no doubt that the cases covered under the authorizations would not have been successfully concluded without the police having access to technical surveillance. None of these cases were fishing expeditions. Reliable information and physical surveillance preceded our obtaining the authorizations in each case . . . Electronic surveillance did produce the evidence required to clear up this major fraud. (London P.D.)
- (d) We consider wiretap evidence as very important, particularly in cases involving conspiracy in which there is an involvement of secret commissions and market (stock) manipulations. It is our view that wiretaps break down the insulation of the criminal mastermind, and provide leads as to the whereabouts of physical evidence that can be seized, and areas of physical surveillance that can be covered. It also provides direct evidence of the offence rather than circumstantial evidence as is the case in most instances, thereby providing a Judge and jury with a more complete fact situation. (R.C.M.P. "O" Division, Toronto)
- (e) It should be remembered that the use of electronic surveillance is limited by legislation to those investigations in which all other methods have failed; therefore, the efficiency rate of 83% indicates the effectiveness of this valuable investigation tool." (O.P.P.)

In summary, it would appear that the importance of the interception of private communications for the investigation, detection, prevention and prosecution of offences is without question. The invasion of any person's privacy is a very serious matter and, accordingly, we must continue to maintain a careful review of all cases where authorizations are sought. Some of the existing problems will be eliminated if those amendments currently before the House of Commons are passed, and it is hoped that those amendments will assist in solving some of the problems which face the courts on the question of the admissibility of intercepted private communications.

Attorney General.
